COMPANY PROFILE

2024

.....

# JOURNEY SO FAR

Industry pioneers delivering excellence for over 30 years

OASIS is a pioneer and a thought leader in the Indian Lighting Industry with over 30 years of experience providing comprehensive lighting solutions. Our carefully curated, extensive range of products enable us to serve client needs from various industries and verticals locally, nationally and globally.

We are committed to crafting high quality luminaires that are efficient and effective. All of our luminaires are built from high-quality materials and reliable parts. Each product goes through a rigorous Quality Control process to ensure they meet our performance and quality standards

Service and Integrity are a core part of our corporate values. We work to serve. We strive to craft not only quality products but also beautiful spaces that elevate human life.

Well engineered luminaires reduce long term cost. Well designed luminaires create beautiful spaces.

# CAPABILITIES

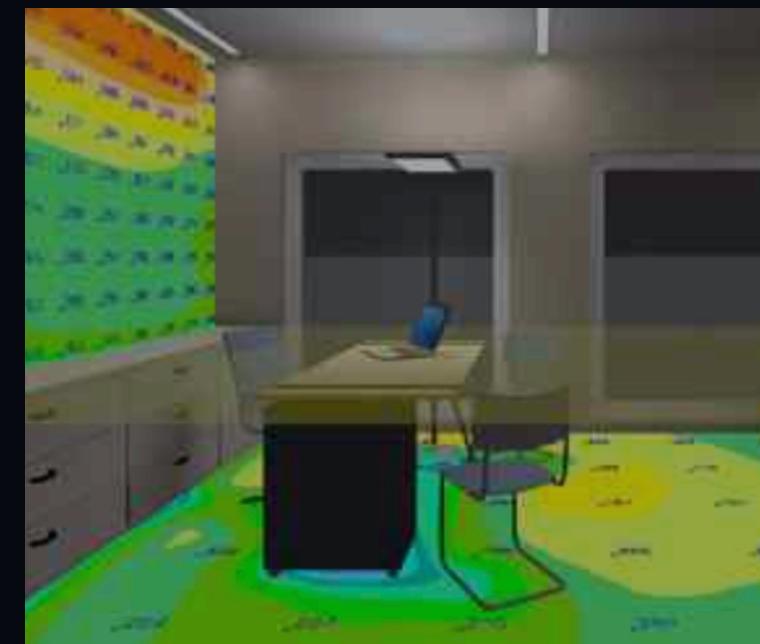

## Luminaire Consultation

Consult us for all your technical questions or concerns and to discover cleanroom lighting best practices for your projects

## Lighting Design

Comprehensive lighting design reports, lighting distribution CAD layouts, optimized capex and opex considerations

## Customized Fabrication

We can engineer, design and manufacture custom luminaires to fit your technical needs

Our expertise in lighting, experience in industry and enhanced engineering capabilities allow us to serve our clients in several ways

# LIGHTING SOLUTIONS

The Oasis process to approach a project to ensure highest degree of quality and success

Let us understand your requirements

Initial consultation sessions and site visits to discover needs. Introductions to the company and the project team.

Comprehensive lighting design and distribution layout

BOQ, lux-based lighting design and analysis report, fixture distribution CAD layouts, detailed project quotations

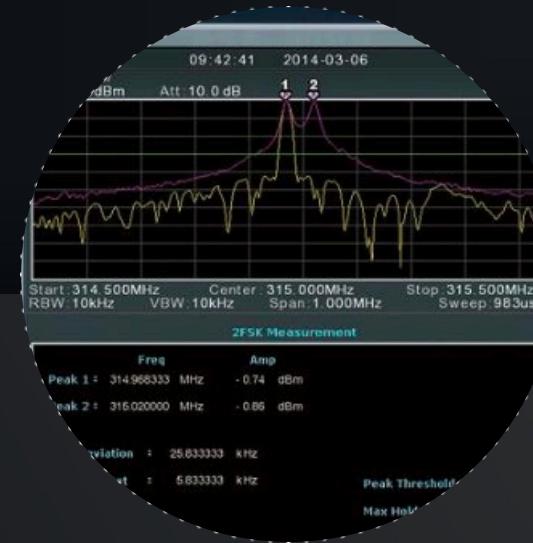

Products manufactured, tested, packed and delivered to site

Receipt of final product designed as per needs and requirements
